This booklet contains statistics about the Bureau of Land Management in Oregon and Washington. Most of the figures pertain to fiscal year 1968 (July 1, 1967 to June 30, 1968). For comparison, data for the preceding year are usually listed, too. In a few cases it has been more appropriate to list data on a calendar year basis.

Resource management facts are provided for the ten BLM districts in Oregon and the one BLM district in Washington.

As the Nation's principal conservation agency, the Department of the Interior has basic responsibilities for water, land, mineral, fish, wildlife, forest, range, and recreational resources. Indian and Territorial affairs are other major concerns of America's "Department of Natural Resources."

The Department works to assure the wisest choice in managing all resources so each will make its full contribution to a better United States -- now and in the future.
